FOR IMMEDIATE RELEASE

Greg Hayden Joins Glunz & Jensen's iCtP Team as Technical Specialist

Granger Indiana – Glunz & Jensen, Inc. is proud to announce that Greg Hayden has joined the iCtP PlateWriter team as Technical Specialist for North and South America.

Greg specializes in Harlequin RIPs and prepress environments including Adobe PDF workflows. In addition, Greg possesses an in-depth knowledge of inkjet and electronics, all of which make him a natural addition to the Glunz & Jensen iCtP support team in the Americas.

“We are extremely fortunate to have Greg on our team with his wide range of skills. The current economic climate seems to be fuelling a drive towards affordable, low-cost chemistry-free systems. iCtP at Glunz & Jensen is expanding rapidly and with sales of over 200 units this year, Greg is a great asset for Glunz & Jensen as we strive to better address the needs of our customers and dealers” said Mark Baker-Homes, Business Unit Manager, iCtP.

Greg started in the US Navy as an Electronics Technician. He also specialized in the Graphic Arts industry, holding positions at Taussig's, a large Graphics Dealer in Ohio, Xpedx and now Glunz & Jensen, Inc.

Glunz & Jensen develops, manufactures, and markets equipment for the prepress industry. The product range covers almost all equipment used in prepress for offset printing in modern printing houses. In Glunz & Jensen, 98% of the production is exported worldwide through dealers, OEM and private label customers. Glunz & Jensen has achieved a leading position and is holding a market share of more than 50% within CtP plate processors.
